Portfolio

EDUCATION

Texas State University, San Marcos, TX

Bachelor of Business Administration in Computer Information Systems (Concentration in AI Development)

Minor in Data Analytics (The Hague University of Applied Sciences)

GPA: 4.0

May 2028

TECHNICAL SKILLS

Programming: SQL, Python

Analytics & BI: Excel, Power BI, Power Query

RELEVANT COURSEWORK

Computer Database Systems, Enterprise IT and BI, Business Programming I, Systems Design & Analysis

PROJECTS

Dutch Supermarket Price Analysis | SQL, Power Query

Fall 2026

Personal Project

- Reshaped and cleaned two Dutch retail pricing datasets (~800k records) from wide-format Excel exports into normalized SQL tables using Power Query
- Resolved inconsistent, multi-level product category taxonomies across two retailers using conditional logic (SQL CASE expressions) to enable direct cross-store comparison
- Queried records using SQL GROUP BY and aggregate functions to compare prices across 5 product categories, finding Albert Heijn priced **34–113%** higher than Lidl depending on category

Inflation & Life Satisfaction Analysis | Excel, JASP

Spring 2026

The Hague University of Applied Sciences — Capstone

Netherlands

- Cleaned and integrated datasets across **106** countries (Kaggle, World Bank), then ran Pearson correlation and stepwise regression in JASP to evaluate inflation's relationship with life satisfaction, controlling for GDP per capita and education
- Found a statistically negative relationship ($r = -0.196$, $p < .05$); final model explained **68%** of variance in life satisfaction
- Identified GDP per capita and education as the strongest predictors of well-being, translating statistical findings into policy-relevant conclusions

Rail Performance & Revenue Dashboard | Power BI, Power Query

Spring 2026

The Hague University of Applied Sciences

Netherlands

- Built a multi-page Power BI dashboard benchmarking TrackWise Rail Co.'s operations against KPI targets, using Power Query to clean **31,000+** transaction records and engineer delay-duration and revenue loss calculated fields.
- Found the company missed 3 of 4 performance targets including on-time performance (86.82% vs 88% target), with weather and signal failures driving **£77.16K** in lost revenue
- Identified peak-hour delays at 2x off-peak levels; recommended dynamic pricing and staffing shifts to reduce disruptions.

EXPERIENCE & LEADERSHIP

VP of Recruiting

Aug. 2025 – Present

Future Leaders in Management

- Co-founded a McCoy College student organization engaging **100+** members, earning **Fastest Growing Organization** and **Best New Organization** awards in April 2026.
- Secured a sponsorship partnership with UFCU by pitching the organization's mission and fundraising goals, growing membership by **50%**

Poll Technician

Jan. 2023 – Present

Katy Independent School District

- Assisted **600+** voters with check-in and ballot scanning, providing accessibility accommodations to enhance voter experience
- Set up and tested **20+** electronic voting machines and check-in tablets to ensure functionality and troubleshoot technical issues

Connection Leader

Jan. 2025 – Oct. 2025

Texas State University Student Involvement and Engagement

- Organized and facilitated Student Engagement events year-round such as Orientation and Welcome Week, engaging **3000+**
- Facilitated group sessions for **300+** incoming students, strengthening public speaking skills
